**EXPERIENCE INCLUDES:** Environmental Quality Control and Quality Assurance Supervisor/Manager, Environmental Laboratory Safety Officer, third party environmental data validator, Technical writer

**PREVIOUS/CURRENT SERVICE TO NERCSQA:** None

**PREVIOUS/CURRENT SERVICE TO SQA:** None

**OTHER PROFESSIONAL SOCIETIES:** American Chemical Society

### **INFORMATION WHICH WOULD FURTHER INDICATE QUALIFICATIONS FOR THE POSITION SLATED AND TESTIMONY AS TO WHAT I HOPE TO GIVE NERCSQA:**

I believe the regional chapters are one of the best ways for current information regarding agency and industry trends to be shared. With multiple meetings throughout the year it gives those in our area a frequent venue to meet and discuss issues and exchange ideas. I bring to NERCSQA a QA professional with environmental experience which has significant overlap with the Bio/Pharma industry. With this comes an understanding of the purpose of quality assurance, the systems available to ensure quality and a desire to contribute to a group committed to a common goal. I am interested in promoting the mission of this group and working with the Board of Directors to expand membership and benefits to the quality community here in New England.
